---

I just seen where Chuck got arrested . It's at least half (b) (6), (b) (7)(C) fault . He was not trained he was not shown pipeline .  
(b) (6), (b) (7)(C) knows (b) (6), (b) (7)(C) I've been  
thinking about this since the day I came up to your office (b) (6), (b) (7)(C) does not have a training (b) (6), (b) (7)(C) what's up front  
running to wash plant and in training and not very good (b) (6), (b) (7)(C) at least (b) (6), (b) (7)(C)  
(b) (6), (b) (7)(C) (b) (6), (b) (7)(C) experienced up front and the (b) (6), (b) (7)(C) is never done  
anything except run errands who won the hills is in charge out there something else is going to happen somebody's  
gonna get hurt When digging in the back The type of ground changes from sand to clay Clay to sand sometimes a  
few feet of clay on top of sand and we work on the edge sometimes 20 feet straight down just food for thought if  
you guys have any questions or anything give me a call I just don't wanna see anything else happen out there It's  
very dangerous if not planned and then done correctly  
This is a voice text so it's not perfect Chuck was being irresponsible and dangerous (b) (6), (b) (7)(C) works out front I  
(b) (6), (b) (7)(C) and (b) (6) still like a whole lot to learn

Sent from (b) (6), (b) (7)(C) on Friday
